If for some reason you will be late picking up your child at the end of the day, please contact the Main Office prior to dismissal. All office staff members leave the building at 4:00p.m. If a student has not been picked up by that time, the authorities may be called, as school personnel will be unavailable to provide supervision.

## **GUIDELINES FOR PARENTS & COMMUNITY VOLUNTEERS**

Lindenwold Public Schools would like to welcome all parent and community volunteers into our buildings for various events. We understand what an important role you play in the educational process. There are no limits to what can be achieved when parents, schools and the community work together!

It is our mission to provide a safe and productive learning environment for our children and to minimize any disruptions throughout the school day. In order to model the importance of education and good citizenship for our children, all volunteers are asked to adhere to the following set of guidelines.

1. All committee business and deliveries are to take place after 5:00p.m. to avoid disruption to student learning during the school day and/or during the YMCA Program. This does not include regularly scheduled meetings.
2. In order to maintain a positive and productive school environment, all parent volunteers are reminded to be positive and professional when working with students, staff and other parents. Our children are always watching us; therefore, we must always act as role models!
3. In order to maintain a safe environment and minimize disruption to student learning, parents are reminded that volunteer time should not be used to conference with school staff and/or other parents. Please feel free to schedule a time to meet with administration or your child's teacher whenever you feel a conference is necessary. Communication between home and school plays a valuable role in the educational process!
4. It is our goal to remain flexible in order to address the individual needs of our children. This holds true for everyone who interacts with our schools! Therefore, any exceptions to the above rules will be made by the School Administration on an individual basis, based on parent request.

### **LATENESS/EARLY DISMISSAL POLICY**

In order to avoid disruptions to student learning and morning/afternoon routines, all students should arrive to and depart from school on time. Although, the school day officially begins at 8:45a.m, students may arrive as early as 8:25a.m. which is when duty teachers are at their posts each morning.

A tardy student (8:50a.m. or later) should report to the Main Office to obtain a late pass to be admitted to class. A student is considered an early dismissal if he/she leaves prior to 3:20p.m. A parent/guardian must report to the Main Office to sign a student out of school early. In order to ensure that our students have left safely with an authorized adult, you will be asked to provide identification.

### STAFF RESPONSIBILITY

Consistency is imperative in an effective discipline program. It is important that all staff members are consistent in the understanding and application of this discipline policy. In dealing with students, teachers must be fair, firm, and impartial. Harsh or unusual punishment should be avoided. Only in this manner can the discipline of anyone be effective. It is, however, an oversimplification to expect that overt acts of disruption and violence can always be dealt with effectively by a list of prescriptive punishments. Effective solutions to disruption must address themselves to the cause and the climate of unacceptable behavior in addition to suggestions of punitive remedies.

Additionally, staff should also model positive behavior patterns that students can emulate. Proper dress and professional traits, such as no gum or food in the classroom is also very important.

### PROCEDURE:

The first line of discipline lies with, and is the responsibility of, the teacher. This teacher action is perhaps the most important step in handling misbehavior because misbehavior can be stopped after one incident, and because actions at other steps of the procedure are based on teacher actions taken at the first step. Should student behavior not improve after this initial step, the teacher should then contact the parent. Parents must be made aware of the problem and asked for their help in eliminating the problem immediately.

**Only after the teacher exhausts all means to effective discipline should referral be made to the Administration, except in cases of emergency.**

First, the Case Manager is informed. The Case Manager convenes a meeting with a group of persons knowledgeable about the student. The group could consist of the Case Manager, other members of the Child Study Team, if appropriate, Principal and student's teacher. The parent should be invited to the meeting. At the meeting, this group will determine whether the student's misconduct was a manifestation of his or her disability.

If this group determines that the misconduct was not a manifestation of the student's disability, the student may be expelled or suspended from school for more than ten days, provided applicable procedural safeguards are followed and educational services continue during the period of disciplinary removal.

However, if the group determines that a student's misconduct was a manifestation of his or her disability, the student may not be expelled or suspended from school for more than ten school days. Educators can still address the misconduct through appropriate instructional and/or related services, including conflict management and/or behavior management strategies, student and teacher training initiatives, measures such as study carrels, time-outs, or other restrictions in privileges, so long as they are not inconsistent with the student's IEP, and, as a last resort, through change of placement procedures in accordance with IDEA. Moreover, the school district has the option of seeking a court order at any time to remove the student from school or to change the student's placement if it believes that maintaining the student in the current educational placement is substantially likely to cause injury.

### **LINDENWOLD PUBLIC SCHOOLS IS A CHOICE DISTRICT**

Chosen to participate in the Interdistrict Public School Choice Program, Lindenwold Public Schools may accept students from other districts looking to benefit from the high quality instruction, small class size, cutting edge instructional technology, and comprehensive academic programs offered by our district.

Parents must submit an *Intent to Participate in the Interdistrict Public School Choice Program* form to the Superintendent of their resident school during the fall to begin the Choice process. This form, along with other important information is available on the district website: [www.lindenwold.k12.nj.us](http://www.lindenwold.k12.nj.us) under School Choice.

Interested students and their families are encouraged to contact Ezekial Gadson, School Choice Coordinator at [egadson@lindenwold.k12.nj.us](mailto:egadson@lindenwold.k12.nj.us) to learn more about attending a Lindenwold School.

## DISCIPLINING STUDENTS WITH DISABILITIES

For any student who misbehaves, a school should decide what action is most likely to correct the misconduct. For a disabled student, the decision may need to take into account the student's disability.

District may act swiftly to remove pupils with disabilities who are disruptive.

The Principal may suspend such pupils immediately for up to ten school days. In addition, pupils with disabilities who bring a gun to school may be suspended for up to ten school days, and subsequently, may be placed in an interim alternative educational setting for 45 calendar days. The Case Manager (if appropriate, other members of the Child Study Team) is responsible for determining the interim alternative setting. If the parent requests a due process hearing, the pupil remains in the interim placement during the pendency of the proceedings.

It is important to work cooperatively to address concerns when signs of misconduct by students with disabilities first appear, before more drastic measures are considered.

For students whose disabilities have behavioral aspects, preventative measures, such as behavior management plans, should be considered and facilitated through the individualized educational program (IEP).

If these steps are not successful, the appropriate use of measures such as time-outs or restrictions in privileges should also be considered, so long as they are not inconsistent with a student's IEP.

No prior determination of whether the misconduct was a manifestation of the student's disability is required before any of the above measures can be implemented. This includes suspending a disabled student for up to two school days.

When a student is suspended or is to be suspended, the Case Manager should be notified. A copy of the suspension letter sent to parents/guardians should be sent to the Director of Special Services. This letter should contain the reason for the suspension and the number of days of the suspension.

If the misconduct is such that more drastic measures would be called for, the case manager should review the student's current program and placement and consider whether a change in placement would be an appropriate measure to address the misconduct.

Where educators believe that more drastic measures are called for, a disabled student may be removed from school for more than ten days, only if the following steps are taken:

## DISCIPLINARY CHAIN OF COMMAND

In the event that the Principal is out of the building, and is needed for a disciplinary action, it is imperative that a second or third in command be designated. This person would be granted discretionary power to handle the situation until the Administrator returns or is able to act. Ideally, this person is a senior staff member and one that has some freedom of time to function in an emergency.

### The Chain of Command is as follows:

1. Principal
2. Supervisor of Basic Skills and Instruction
3. Guidance Counselor
4. Designated Staff Member

**Central Office Chain of Command – all appeals/concerns should be addressed to the Superintendent. In the event of the Superintendent's absence, appeals or concerns are to be referred to the Business Administrator.**

## SCHOOL-PARENT COMPACT

When a pupil is placed on administrative probation, the Principal will notify the parents in writing of this action. Should the pupil demonstrate any further behavioral problems that result in suspension, the Principal will meet with the pupil and parents to determine the length of the suspension. The Principal will then notify the parents in writing, that any further disciplinary problems that result in suspension will require a hearing/review of the Chief School Administrator.

The Principal will notify the Chief School Administrator that the pupil has been placed on administrative probation.

Should the pupil receive any further suspension, the Principal will notify the Chief School Administrator and forward a "Hearing Summary Report" to his/her office.

The Chief School Administrator will then:

- a. Conduct a Pupil/Parent Conference.
- b. Determine the length of the suspension and determine if the case should be referred to the Board of Education for an expulsion hearing and/or the Child Study Team to determine if an evaluation is warranted.

### Expulsion

A suspension is a temporary removal from school, while an expulsion is a permanent exclusion from school. The Principal will follow the procedure for "Long-Term Suspension" of this policy, while preparing for an expulsion hearing. In addition, the pupil and his parents will be notified with:

- A. A written notice containing the date and the time of the hearing and statement of the specific charges that justify expulsion. The pupil will also be informed of the right to be represented by an attorney.
- B. A list of witnesses against the pupil and a written report on the facts to which the witnesses will testify.
- C. An opportunity for the pupil to present his/her own defense and to produce either by oral testimony or written affidavits of witnesses on his/her behalf.
- D. An opportunity to confront and cross-examine the witness.

### Appeals to the Chief School Administrator

In order to provide an orderly process regarding the appeal of pupil disciplinary decisions made by School Principals, appeals to the Chief School Administrator shall be in writing.

  - b. Determine if the pupil's individualized education program is appropriate
  - c. Prepare and forward to the Principal and parent a written report with recommendations (N.J.A.C. 5:28-2.8).

### B. Long-Term Suspension (more than ten days)

Long-term suspension results from a pupil receiving more than one short-term suspension. A long-term suspension may also be given to a pupil who is involved in an extremely serious offense (e.g., assault, possession or distribution of a controlled or dangerous substance, etc.).

In addition to the effects of short-term suspension, long-term suspension may include:

1. a. Non-Classified Pupil – Where there has been a pattern of disruptive behavior, a referral may be made to the District Child Study Team, in order to determine if an evaluation is warranted.  
b. Classified Student – A request to the Case Manager shall be made pursuant to NJAC 5:28. The purpose of the referral is for a determination to be made as to whether the pupil's behavior is primarily caused by his educational disability, and if a re-evaluation is warranted.
2. Depending on the number of days of suspension, home instruction will be provided after a student is out more than four consecutive days.
3. Placement on administrative probation.

- H. Use or possession of unsafe or illegal articles
- I. Use of any tobacco product on school property
- J. Use, possession or sale of a controlled, dangerous substance
- K. Turning in a false alarm or bomb threat
- L. Tampering with or damaging property of other pupils or staff members
- M. Selling or buying lottery tickets or any other gambling paraphernalia on school property

**Procedure for Suspension/Expulsion from School**

Pupils may be suspended by the Principal for any of the reasons listed in the Code of Conduct.

In case of suspension, the pupil will have an informal hearing with the Principal. This informal hearing shall include:

- A. Informing the pupil of the charges against him/her;
- B. Giving the pupil an opportunity to reply to the charges against him/her.

In most cases, suspension time begins at the end of the school day on the day that the suspension is issued. However, the administration has the right to suspend a pupil from school immediately when it is determined that waiting until the end of the school day will jeopardize the safety and well-being of other pupils.

Parents will be notified of the suspension by telephone (if available in the home) and in writing. **In cases that result in suspension from school, a parent conference with the appropriate Building Administrator is required before the pupil may be permitted to return to regular classes.**

**Effects of Suspension**

- A. Short-term suspension (ten days or less)

The effects of a short-term suspension are listed below;

1. Days absent from school, which are the result of a suspension, will be recorded as excused absences.
2. The pupil will be able to make-up any class work, test, quizzes, projects, homework, etc, missed during the days of suspension without any penalty to his grade. It is the responsibility of the pupil to approach the teacher to receive the missed assignments. The pupil will be allowed a specific number of days to complete these assignments that is equal to the number of days missed due to the suspension.

**HOMEBOUND INSTRUCTION**

When a child is expected to be out of school for, at least, a two week period of time and needs confinement at home because of a certain illness or immobility, parents may request through the principal’s office that home instruction be provided. The request must be in writing along with a certificate from the attending physician stating the nature of the illness and also a statement that the child is capable of receiving instruction without endangering the child’s health. The request will be forwarded to the Director of Special Services.

Once the need for confinement at the home has been established, instruction may be provided for up to sixty (60) calendar days in a school year. If the school physician believes that instruction for a longer period of time is necessary, identification shall be made according to N.J.A.C. 6:28-3.2 and 3.3 for determination of eligibility as chronically ill.

**STUDENT RIGHTS AND RESPONSIBILITIES**

The Lindenwold Public School system adheres to the firm belief that students have basic rights and responsibilities in pursuing their educational experiences in schools.

The Lindenwold Board of Education also recognizes that pupils have the right to request redress of grievance. Accordingly, a procedure for dealing with individual and group grievances will be provided.

Your support is of great importance.

All students must meet immunization requirements as per State Law. Noncompliance with this regulation will result in exclusion of the student from school until requirements are met.

In the event a child becomes sick or injured at school, the nurse will contact the parent/guardian/contacts for the child to be picked up from school. Please be sure to keep your contact information up to date.

*The privileges and rights of students may not, however, interfere with the rights of others. ### Teacher Statement of Responsibilities

Teachers have the responsibility to make every effort to treat each instance with fair and impartial judgment, reflecting the age and maturity level of their students. Teachers have a responsibility to make sure that every student understands his/her obligation to the school community by instilling social responsibility and self-governance. Students must be given the necessary information in order to understand the need for rules and the application of them. In the enforcement of the policies, the teacher must make every effort to apply the code of conduct with consistency, reasonableness and common sense.

## ADMINISTRATOR'S STATEMENT OF RIGHTS AND RESPONSIBILITIES

School Administrators and teachers make up the educational team within the schools. They share equal responsibility in the education of the students entrusted to their care. For that reason, decisions regarding discipline and application of policy should be made by the team.

As educational leaders of the building, it is the responsibility of the Principal to see to it that the policies and procedures developed by the Lindenwold School Community and Board are carried out and enforced. To that end, the Administrators will work to bring a coherent and fair application of those policies and laws. The Administration has the responsibility to make sure that the staff has an understanding of the policies and laws, as they apply within the individual schools, and to the students. While there may be differences between the schools and administrators, these differences should not be allowed to interfere with adhering to the Code of Conduct. There must be a level of consistency within the district as the students move from school to school.

### Student Rights & Responsibilities

#### 1. Lindenwold Public Schools, Lindenwold, New Jersey

## MEDICATION POLICY

State regulations, upheld by Board Policy, are very specific regarding dispensing of medication in school. A written statement on the School Authorization Form from the Health Care Provider is needed indicating the type of medication, dosage, time to be given, and the purpose for taking it during school hours. **Medication must be in the original container, clearly labeled with the child's name, name of the medication, name of Health Care Provider, dosage and time to be given.** Written parental permission on the School Authorization Form is also required to administer the medication during school hours. Further inquiries should be directed to your school nurse.

### **EXCLUSION DUE TO COMMUNICABLE DISEASE**

**Rubeola (measles), Mumps, Rubella (German measles):** All of these communicable diseases must be confirmed by means of a blood test. These diseases (suspected or confirmed) must be reported to the local Board of Health. A student may not be readmitted to school until written clearance is obtained from the family physician.

**Streptococcal infections** require medical documentation as to the treatment.

**Chicken Pox (Varicella):** Students are excluded 6 days after onset of rash, or until child can comfortably return to school.

### **PHYSICAL EDUCATION EXCLUSION**

Any child that is to be excused from physical education for medical reasons must have a note from home. An excusal for more than one class requires a note from your Health Care Provider stating the reason and the duration of exclusion.

### **REMEDIAL ACTION FOR EXCESSIVE ABSENCE/TARDINESS**

The classroom teacher shall be the person initially concerned with a student who is showing habitual truancy or tardiness. The teacher shall notify a Building Administrator who will initiate a series of warning notices and other appropriate actions, including possible truancy charges.

### **SMOKING**

Smoking is not permitted in school buildings or on school property at any time. Smoking means use of tobacco in any form. Any pupils suspected of use, possession, and/or distribution should be reported to the Building Principal. Adult violations to the smoking ban should also be reported to the Building Principal.

## POLICY ON DRUGS, ALCOHOL AND TOBACCO

It is the responsibility of the Lindenwold Public School District to safeguard the health, character, citizenship, and personality development of the students in its schools. The Lindenwold Board of Education recognizes that the misuse of drugs or alcohol by any pupil threatens the positive development of that student and the welfare of the entire school community. The Lindenwold Board of Education is committed to the prevention of drug, alcohol, and tobacco abuse and the rehabilitation of identified abusers. We, therefore, must maintain that the use of drugs and possession, or use of alcohol is wrong and harmful.

In accordance with the Board policy, the following procedures are established for the instruction of pupils in drugs, alcohol and tobacco abuse; the evaluation and treatment of pupils who possess drugs, alcohol or tobacco; and for pupils that are suspected or found to be under the influence of drugs, alcohol or tobacco.

Teaching staff members will be alert to the signs of pupil's involvement with drugs, alcohol, or tobacco including: impaired health or fatigue; excessive truancy or tardiness; lower grades; depressed appetite or extreme loss of weight; eyes that bloodshot, watery, extremely wide, or have extremely small pupils; and unusual body or breath odor; needle tracks; a change in attitude, personality, temperament, appearance, or peer groups, and mental confusion.

In accordance with statute and code, penalties shall be assigned for use, possession and distribution of prescribed substances. The penalties shall be graded according to the severity of the offense. Infractions shall be reported to the local law enforcement agency in accordance with the district's memorandum of agreement. Confidentiality shall be protected in accordance with federal and state law.

Classified pupils are subject to the same disciplinary procedures as non-educationally disabled pupils and may be disciplined in accordance with the IEP. Staff shall comply with the regulations of the New Jersey Administrative Code in dealing with discipline and/or suspension of classified pupils. Before disciplining a classified pupil, it must be determined that:

- A. The pupil's behavior is not primarily caused by his/her educational disablement;
- B. The program that is being provided meets the pupil's needs.

All students should be aware that school authorities will take all reasonable steps to prevent the possession and use of drugs and/or alcohol on school property and to apprehend those who possess and/or use drugs and/or alcohol. These steps will include the inspection of desks assigned for student use, whenever there is reason to believe that inspection of a desk is warranted.

Any student who violates the rules regarding drugs and/or alcohol should understand that school officials consider such violations as serious and will not hesitate to take appropriate action. Appropriate action can include permanent removal from school (expulsion).

## STUDENT CODE OF CONDUCT

### Philosophy and Intent

The Board of Education expects pupils to conduct themselves in keeping with their level of maturity, with proper regard for the rights and welfare of other pupils, for the educational purpose underlying all school activities, and for the care of the school facilities.

This procedural manual has been developed by the Lindenwold School District for the purpose of delineating school rules, practices and consequences as they relate to the administration of discipline in the school. **It is meant to be a general guide for students, teachers and administrators. Certain situations may warrant measures different from those prescribed herein. In such instances, administrative discretion will prevail.**

Students with educational disabilities are subject to the same discipline policies or procedure as non-disabled students unless the student's individualized education program includes exemptions to those policies or procedures. In addition, certain measures have to be taken in the discipline of students with disabilities. These are outlined in the section entitled "Disciplining Students with Disabilities."

The Lindenwold Schools would like to give your children the best education possible. Cooperation of staff, parents and students is essential in attaining our goal. Structure and discipline are needed to ensure that all students are given the opportunity to learn in a safe, undisrupted environment. Rules and consequences will help students learn self-control and respect. Consequences demonstrate to children that negative behaviors result in negative consequences. Through discipline, students will learn that they have control of their bodies, words, and actions and that school is a place for learning and sharing knowledge.

It is our hope that this manual will assist parents, students and teachers in the identification of unacceptable behaviors and provide a clear and consistent explanation of consequences such behavior will merit. **The listing included is not intended to be all-inclusive.** This manual's intent is to identify commonly recognized behaviors that are unacceptable in the educational setting. The School Administration and/or Board of Education have the right to administer discipline for any other offense that is in violation of the law of school district policy or procedures, or in violation of acceptable standards of conduct for students in the Lindenwold School District.

It should be noted that these procedures also apply to those school sponsored events that may take place beyond the regular school day and away from the school building. We want to be proud of our students, but more importantly, we want them to have pride themselves. To that end, we are committed to providing the best possible learning environment.

- **You Want Homework Information:** For specific homework information, or to request homework for a sick child, you may call the school office and request that the teacher contact you at the end of the school day.
- **You Want A Message Delivered:** Only emergency messages may be delivered to students. In case of emergency, give the message to the Building Principal or the secretary, and it will be transmitted to the student.

## HOW PARENTS CAN HELP

The home and the school must work together to insure the best educational progress for each child. There are many ways in which parents can help. Here are a few suggestions:

- A. Take an active interest in school affairs, attend school functions, and be present for your child's conferences.
- B. Set up a schedule at home that includes plenty of rest, adequate diet, encourages good health habits, allows for free time and leisure-time activities.
- C. Show interest. Encourage/Praise your child for outstanding work.
- D. Encourage wide interest in books, magazines, trips, hobbies and current affairs. Participation in community organizations for youth is often helpful to a child's development.
- E. Show confidence in your child and his/her ability to make small decisions for himself/herself. Build a sense of responsibility through ever-widening experiences, assisting with household chores, and running errands.
- F. Provide stimulating reading materials at home such as children's magazines, encyclopedias, nonfiction and fiction books, etc., written on your child's reading level.
- G. Feel free to contact your child's school whenever a problem arises. Don't talk over your child's problem with your neighbor. Contact the child's school where immediate attention can be given to the problem.

## **Physical Education**

Students will follow this procedure for physical education days and classes.

- Elementary school students will be asked to wear sneakers with their uniforms on their physical education days. They will not change out of their uniform.

## **Dress Code Violations and Deviations:**

The building administrators will make final determination if the students' attire meets the approved Dress Code policy. Students choosing not to wear the approved dress code attire will be disciplined as indicated in the school's Code of Conduct. The same code and rules will apply per building, as in the past with dress code violations. Students will always be given the opportunity to change into an appropriate outfit, if at all possible, before any discipline action is taken. When a student does not comply and has been given the opportunity to change the clothes, then having an alternate placement for them is necessary. However, our goal as a district is to always to use exclusion from school activities and classroom experiences as a last resort.

The Building Principal must approve any deviation from the dress code for specific, approved events.

## **Donations:**

All schools will accept donations of uniform clothes in order to create a bank of acceptable clothes that may be worn to school. Parents can drop off these uniforms to any of our schools.

## **Annual Evaluation:**

An evaluation of the uniform school dress code will be reviewed annually with the Building Principal and the Board of Education.

## **Lindenwold School District Dress Code**

The uniform dress code of Lindenwold Public Schools is being implemented primarily as a way to improve the school-learning environment. It is intended to provide an equal clothing status to all children and allow students to focus on the educational process rather than a fashion statement. It is also intended to provide a sense of unity and belonging to students who attend our schools. Students will be required to dress in a manner that reflects good taste, modesty and appropriateness for an educational learning environment. The following dress code policies and procedures were developed by a committee including representation of students, parents, teachers, administration and board members.

## **Dress Code Implementation**

As mentioned above, our goal is to provide our students with an environment that allows students to focus on academics instead of other issues. It also will provide our students with a sense of unity and belonging, for those reasons the uniform implementation procedure will be as follows

- The implementation of the uniform policy will be as of the first day of school and will affect all of the schools in the Lindenwold School District at all grade levels.
- Students that are new to the district will be expected to comply upon beginning their first day of school in the Lindenwold School District.
- As students enroll, a list of suggested stores and resources will be given to the parents with ideas as to where clothes can be purchased that will fall under the approved uniform dress code.
